

The Founder Content *Playbook*.

One 20-minute recording. Ten high-converting assets.

A step-by-step workflow for turning a single founder recording into a month of content across YouTube, LinkedIn, and outbound sales. The exact stack we run for our retainer clients.

CONTENTS

- 01 — Record the core anchor asset
- 02 — Extract 3 to 5 micro-clips and transcripts
- 03 — Publish YouTube anchor and Shorts
- 04 — Execute LinkedIn drip cadence
- 05 — Embed into outbound and sales nurture
- 06 — Channel distribution breakdown

01

Record the core anchor asset.

Focus on one core thesis or problem.

Record a 15 to 20 minute conversation, founder thesis, or customer teardown. Structure the discussion into three distinct sub-topics (5 to 7 minutes each) with clear start and end points, so the episode naturally breaks into standalone segments.

02

Extract 3 to 5 micro-clips and transcripts.

Slice into channel-ready formats.

Vertical Shorts (30 to 90 seconds)

Cut high-hook moments (contrarian insights, framework reveals, tactical wins) formatted in 9:16 vertical aspect ratio with burned-in subtitles.

Text extraction

Transcribe the audio using AI tools to extract key quotes, framework steps, and post copy.

03

Publish YouTube anchor and Shorts.

Capture evergreen search intent.

Long-form video

Upload the full 15 to 20 minute recording with keyword-optimized titles, custom thumbnail, and chapter timestamps.

YouTube Shorts

Schedule the 9:16 clips across two weeks, setting the full long-form video as the related video link within YouTube Studio.

04

Execute LinkedIn drip cadence.

Drive feed engagement and founder authority.

Release one clip per week natively on LinkedIn. Ensure the post structure includes:

A strong hook

Summarize the core insight in one sentence.

Three key takeaways in the post body

Users get value without hitting play.

A pinned comment link

Points to the full YouTube video for deep-dive viewers.

05

Embed into outbound and sales nurture.

Increase cold response and deal velocity.

Cold outbound (step 2 or 3)

Include an animated GIF preview linking to a 1-minute clip. Example: "Recorded a 60-second breakdown on how [Company] handles X..."

Post-demo nurture

Send the full long-form video link to active deals after initial discovery calls to handle objections and establish founder trust.

06

Channel distribution breakdown.

What goes where, and why.

CHANNEL	FORMAT	PRIMARY OBJECTIVE
YouTube	10 to 20 min anchor + Shorts	Evergreen SEO discovery and deep trust building
LinkedIn	Native 9:16 video + text	Founder authority and feed reach
Outbound / Email	GIF or thumbnail + short link	Cold reply lift and pre-call prospect vetting

WANT US TO RUN THIS FOR YOU?

The *Founder Content Retainer*.

Two shoot days a month. Full calendar, scripting, edit, and posting across YouTube, Shorts, and LinkedIn. One invoice.
